

High-Quality Clinical Trials

Our goal at the Alpha Clinics is to deliver high-quality stem cell clinical trials to patients.

MISSION

To accelerate the development and delivery of stem cell treatments to patients.

The CIRM Alpha Clinics network offers:

- *Specialized clinical operations and trial support teams in top-tier California Medical Centers*
- *Patient recruitment tools using cohort registries of over 20 million patients*
- *Patient education, consent and follow-up customized for stem cell clinical trials*
- *Network-wide IRB reliance agreements*
- *Cell handling and formulation expertise*

Stem cell trials conducted at Alpha Clinics have been reviewed and authorized by the FDA and are approved and monitored by the clinic's research ethics committee.

Alpha Clinics are Located at Top Medical Centers

The Alpha Clinics at UC San Diego, City of Hope, UC Los Angeles, and UC Irvine currently support trials in:
